Objective

As a dedicated lifelong learner, I am passionate about programming and devote significant time to mastering it. With advanced skills in programming, I aim to further refine my career in web development. I am confident in my abilities and qualities to excel in this field.

Skills & Abilities

Web Development

- HTML/CSS: Proficient in modern HTML and CSS standards; experienced in creating responsive, accessible, and cross-browser-compatible websites; advanced knowledge of SCSS.
- JavaScript: Strong foundation in vanilla JavaScript; familiar with ES6+ features.
- Frameworks & Libraries:
 - Angular: Expertise in building dynamic single-page applications; knowledge of Angular best practices and design patterns.
 - React: Skilled in developing interactive UIs and front-end components.
 - jQuery: Competent in DOM manipulation and AJAX operations.
 - TypeScript: Proficient in TypeScript for large-scale applications.

Responsive Web Design

- Experienced in implementing responsive and adaptive designs with a focus on mobile-first principles.

Additional Tools & Practices

- Version Control: Skilled in Git and GitHub.
- RESTful APIs: Integration of REST APIs in front-end applications.
- Hackathon Achievements: Proven teamwork, problem-solving, and innovation skills demonstrated through Hackathon victories.

Back-End Knowledge

- SQL: Basic knowledge acquired during university studies, including database queries and table manipulation.
- PHP: Basic understanding of PHP for back-end scripting, such as handling forms and creating dynamic web pages.

Certifications

- Microsoft Information Technology Specialist ([Credential Link])
- Step Academy: Certificates in HTML, CSS, JavaScript, Angular
- Digital Industry Academy: Certificate in Angular

Global Certifications

- **IT Specialist - HTML and CSS** || [Certiport](#)
- **Software Development skills Angular, Specialist Certificate** || PeopleCert

Experience

Intelcom, Tbilisi (2023-08 to 2023-10)

- Developed a website for the company's internal educational system.

Georgian Technical University, Tbilisi

- Contributed to the university's chatbot page and modified table pages.

Freelancer, Tbilisi

- Worked on various projects across platforms, gaining diverse experience.

Hackathon Tournament (2024-04 to 2024-07)

- Gained extensive experience in teamwork and excelled under pressure within tight deadlines.

Education

Public School (2009 to 2021)
Georgian Technical University: Bachelor’s Degree in Computer Engineering (2021 to 2025)
It Step Academy: Front-End Developer (2022-08 to 2023-02)
